Dear Arthur:

In response to your suggestion that we prepare a detailed summary on the history and current status of the several cigarette warning bills pending in the Congress and a plan of action which anticipates that these or similar bills will be considered in the next Congress, I am enclosing to you such documents. Please note that the plan for future action, designated as scenarios, is separate from the status report. The reason, of course, is that the action plan should be held in the strictest of confidence at this time.

You should receive these documents on Monday morning, December 6. After you have had an opportunity to look them over, please call me in order that we may determine when further distribution of either or both should be made.

With all good wishes, I am

Sincerely yours,

Horace R. Kornegay.
